

Treasurer Report

I have contacted Keith Davidson at Scotiabank in Campbell River to find out if we can open new bank accounts at Scotiabank for the Campbell River Skating Club. The software program we are currently using, Quickbooks Online, is not compatible with downloading transactions directly from HSBC and it makes the accounting process very time consuming. Keith Davidson was just transferred to another branch and he forwarded my request to the current Branch Manager, Aaron Murray, but I am still waiting for a reply. It will depend on what Scotiabank can offer us regarding bank charges & fees, to make the decision to move the accounts over. I will keep you updated.

After the President and I have worked hard on changing the Chart of Accounts, I am happy to report that the Chart of Accounts for the Campbell River Skating Club is now very effective and logical and it will make reporting at month and year-end easier to understand. We hope that it will also provide the needed information to the Community Gaming Grant program.

Thank you

René Prinsloo
